Adaptive Intelligent Materials and Systems (AIMS) Center
Arizona State University
Tempe, Arizona

Start Date: TBD

Description: A postdoctoral position is available immediately in the Adaptive Intelligent Materials and Systems (AIMS) Center, Arizona State University, Tempe, Arizona. Qualified candidates must have an earned Ph.D. in Mechanical or Aerospace Engineering or a related field, and have also demonstrated the ability for high quality research with a strong background in one of more of the following areas:

- Adaptive structures and intelligent systems.
- Structural health monitoring/damage prognosis.
- Multifunctional materials.
- Autonomous systems.
- Information management.
- Sensor design.

The position involves interacting with faculty from various departments. Experience in proposal writing and the ability to work in multidisciplinary areas are desirable. Review of applications will commence immediately and continue until the position is filled.

Please submit: CV with three references
